

Masterful Class

Masterful Classes are about harvesting Industry wisdom to shape the future

The Masterful Class

identifies emerging leaders in an Industry sector and involves them in a 30 hour program to:

- Galvanise their own leadership potential through working with an Icon from their sector
- Gain greater awareness of their choices in 'how to...' apply leadership practices
- Participate in an active and productive industry network focused on the key issues facing their Industry

Why a Masterful Class?

- Most Industry sectors will face a significant turnover in leadership in the next five to ten years.
- Opportunities to participate in current leadership programs are offered to those already functioning in leadership positions and who have demonstrated potential for future roles in Industry leadership.
- Young professionals need access to Icons to enable their confidence to take on leadership responsibilities supported by an Industry network.

Support: Throughout the program, participants have opportunities for in-depth conversations with the chosen Icon and other leaders invited to the program.

In addition, resources drawing upon the readings that have informed and influenced the Icon's leadership will be nominated to the participants.

Case Studies: During the program participants will be invited to share their own case studies of leadership issues.

Networking: After the completion of each Masterful Class series, participants will become an Industry Alumni and encouraged to stay in touch with Icon Principle and next generations of leaders as Industry networks emerge. Networking events will be provided to complement learning.

Is coaching available through the program?

Yes, participants involved with the Masterful Class series can negotiate additional one-to-one executive support sessions with Icon Principle.

What are the Program Benefits?

- Higher levels of appreciation of your own leadership potential
- Greater flexibility, adaptiveness and responsiveness to leadership issues
- Ability to apply the 'how to...' knowledge of others to problem solving and leading
- Ability to utilize a range of coping and adaptive strategies of leaders
- Ability to apply diverse 'know how' to key Industry issues

Key Leadership Themes

- Building influence
- Mapping horizons
- Approaching challenges
- Collaborative creativity
- Building Discernment
- Transitions

Investment

The investment is \$6,600 per participant for the 30 hours program

Without iconic wisdom how will companies and Industries energise the commitment of emerging leaders to light a fire in their sector; to encourage responsibility that spreads like wildfire?
