Empowering Business Leaders

BusinessAllies Roundtables are an alliance of entrepreneurial business leaders committed to encouraging and supporting each other as businesses.

WORKING TOGETHER: BUSINESSALLIES ROUNDTABLES

Made up of business leaders who want to accelerate their growth, BusinessAllies Roundtables are monthly sessions that provide an opportunity to challenge goals and to support and advise peers as likeminded professionals.

They share your challenges and opportunities with abundance and the collective wisdom benefits all.

BusinessAllies Roundtables are for non-competing businesses and structured around teams of leaders from similar sized businesses.

These like-minded entrepreneurs share their challenges and opportunities (knowing that these will be largely shared by the group), and the collective wisdom will benefit all.

From 7.00 am to 9.00 am (or by agreement between members) and to be held over breakfast. Members bring their own perspectives and contribute to the points under discussion. Insights and solutions are shared with the group supportively challenging each others' beliefs and strategies.

\$1,700 plus GST per 6 months.

Stronger together

“Business leaders shouldn't struggle alone striving to do the best by their businesses. Opportunities exist to share their extraordinary capabilities with other seasoned entrepreneurs passionate to share their business ideas and to feed on the enthusiasm of others.

Our job is to assist you to discover (or re-discover) your own capabilities and to learn from your peers.

Based on our 30 years in business consulting, entrepreneurs commit to sharing and supporting each other through challenging business models and solutions.

This happens in strictly respectful peer to peer roundtables which are the best solutions to business growth leadership”

- Frank Wyatt, Strategic Advisor, Enterprising Partnerships.

What our members say

“As the former CEO of Kingston Council for many years, I joined a group of business owners or CEOs that met for 2 hours each month. These facilitated discussions provided insights, informal mentoring, learning and business development opportunities that we would otherwise not had. Conducted under Chatham House Rules these meetings were energising and very often inspiring. Attending was something all members looked forward to and their sustained success over more than a decade in no small part was due to the Facilitator’s expertise, his own business experiences and the knowledge and insights he brought to our discussions topped off by his ability to succinctly summarise our discussions and learnings.”

John Nevins, former CEO, KingstonCity Council

“When I first joined a Roundtable, I was concerned about how business leaders would view giving up 2 hours a month, but it quickly became clear that the Roundtable contributed so much to their business solutions and planning that they were happy to invest 2 hours and give back to the others in the group .”

Stephen Wooster, Independent Business Advisor

“During my time with the Roundtable, I met a range of very high calibre people and decision-makers. The values of these entrepreneurs drive their business decisions and sharing ideas with peers strengthens the resolve and innovativity of us all”.

Michael Warshall, Chairman of The Board at Emotion Holdings, Emotion Wedding Photography and Picturemaker Printing

“I was impressed by how this Roundtable was facilitated and how the Facilitator could extract from business leaders their own concerns, beliefs and fears to be shared with other business leaders to support and contribute to each other whilst providing invaluable implicit coaching and insights – it was well worth the time and investment in joining”

Shannon Egglestone, CEO, Richstone Group
